

LOUISVILLE WON POST-SEASON SERIES

Baltimore, Oct. 17.—The post-season series between Louisville and Baltimore ended today when the American Association champions won an 11 to 5 contest, giving them the necessary fifth game to clinch the series. The International League representatives won three.

The afternoon contest was not much of a battle as Jack Ogden, who had won all of his previous three games against the Colonels, was off form and was hit hard, finally giving up to Frank in the sixth inning. Roy Sanders pitched a good steady game up to the eighth inning but he was beyond danger then.

The Orioles lost several opportunities during the early innings but it was not until the eighth that they were able to get on with the Colonels. As yesterday, a man was passed purposely to get a sup-posedly weaker batter. Ogden filled the bases with two out to take a chance on getting a run but his safety in his last out was not paid for. He was hit in the fourth inning. However, he got a single to right and three runs were the final outcome of the incident in the second inning. From then on the home club was always behind. The score:

	Baltimore	Louisville
Runs	5	11
Hits	11	15
Errors	2	7
Left on base	10	8
Strikes out	10	10
Balks	0	0
Double plays	1	1
Time	2:10	2:00
Umpires	Connelly and McGowan.

was expressed in a statement issued to-night by Colonel Jacob Ruppert and Colonel T. L. Huston of the New York Americans.

Asserting that the rule had been violated so definitely that baseball Commissioner Landis had no alternative but to meet the situation firmly, the statement continued:

"This rule appears to be unjust in many respects but as long as it exists it should be obeyed. The players made the mistake in not petitioning for a modification of the rule."

STATEMENT BY PRESIDENT OF LOCOMOTIVE ENGINEERS (Continued from Page One)

No explanation was given why it was held to the last.

It also was explained that all the organizations in some of the roads in group four are not officially authorized to strike some of the organizations not casting the necessary 66 2-3 per cent vote in favor of the railroad. The "big five" had no right to strike until they had secured the necessary 66 2-3 per cent vote in favor of the railroad. of twenty American soldiers and twenty British fighting men on the other. Harrow paid tribute to the thousands of the British unknown dead symbolized in the grave before him. At the conclusion of his tribute he designated General Pershing to bestow the medal.

The American general then stepped forward and Vice Admiral Niblack held the medal while General Pershing addressed the assembly. Upon concluding his remarks he took a few steps toward the center of the tomb and placed the medal upon a cluster of green leaves. He then stood for several seconds in silent salute.

Afterward Dean Ryle, in response to General Pershing's remarks, said it was with a feeling of profound and respectful gratitude that they of the ancient abbey received America's tribute. He added that provision had been made to safeguard the medal for all time in the spot where historic treasures are preserved and where all people were free to gaze upon it.

Immediately after Dean Ryle had concluded his remarks, Mr. Lloyd George spoke with considerable emotion. Special prayers followed and then, to the accompaniment of the Scots Guards' march, a whole congregation joined in singing "The Battle Hymn of the Republic." The dean pronounced the blessing and immediately afterward the silence of the abbey was broken by the triumphant notes of "The Lord's Prayer." There was a roll on the drums, and the band broke into the national anthem.

FINANCIAL AND COMMERCIAL

MARKET WAS UNSETTLED

New York, Oct. 17.—Trading in the stock market today was almost wholly dominated by the graver aspects of the labor situation and other developments of unfavorable import, including the further and more shrinkage of German exchanges.

Bulls sustained early losses of 1 to 3 points, as did equities, steel, motors, copper and other leaders of kindred description. In several instances, notably among minor or inactive transportation, the reversals were extended to a considerable extent later.

Cills were inclined to resist the general pressure at the outset but the weight of unfavourable factors gradually effected substantial reversals in their quarter. Royal Dutch was among the most under constant attack in the group, and its report that the company had sold its holdings in Mexican Eagle Oil.

Other points of weakness embraced shipping, tobacco, textiles, leather and some of the utilities, including electric companies. The only issues to show gains at the close were those engaged in a manufacture of motor trucks, those in the textile industry, and a few others. The market was largely stable, with a few reversals in the event of a strike. Sales amounted to \$72,990 shares.

Leaders of the afternoon were better than at the close of the morning session, but at 3:15 p. m. the rate fell to 4 per cent at 4:00 p. m., however, but this was without much stabilizing effect in a final hour when lowest stages were made.

The slump in market, which carried that resistance down to a new low of 100 1-4, was in a measure contrasted by a vigorous advance of steeling demand, following to 23 1-2 almost 4 points over last week's final quotation. Steel and American Iron Works, but Wyand, Italian, Belgian, Swedish and Greek stocks reacted in variable degree.

Railroad bonds naturally were affected by the proposed strike, losing 1 1-2 points, and a few exceptions, such as 2 1-2 and second 4 1/2, liberty loans were moderately lower and foreign, loans, including Japanese and Mexican, raised. Total sales (par value) aggregated \$16,250,000.
